Field Comments.

- (1) According to motor vehicle numbers, the return of elements of the 13th AAA Div which are stationed in the Flak Kaserne in Leipzig-Schoenau. Although no information was received on their departure, these elements are believed to have been in Altengrabow for AA firing practices as had been other units of this division which are stationed in Weimar.

On 19 April [] a train which went from Leipzig-Rueckmarsdorf to the Magdeburg Regional Railroad District and thus possibly to the Altengrabow troop training grounds. [] it was considered that this train took part in a possible transfer of elements of the unidentified rocket launcher regiment of the XXIX Gds Mz Rifle Corps. It may, however, have carried elements of the 13th AAA Div which has now returned to the Flak Kaserne in Schoenau.

- (2) The 21st Gds Mecz Regt of the 8th Gds Mecz Div which is stationed in the Flak Kaserne in Heiterblick is still believed to be in Koenigsbrueck. The present occupation still tends to indicate that the driver school and repair shop continue to be located there. []

- (3) The Hindenburg Kaserne is still occupied by a komendatura. Part of the air force construction unit which is also stationed there was transferred to the Erfurt-Bindersleben airfield in mid-April 1952. [] The light occupation of the installation mentioned in the present report tends to indicate that this element of the unit has not yet returned.
